

ABOUT US

Sherman Pole Buildings has been raising the standard of post-frame construction since the start of the business in 1976. We specialize in residential, commercial, and agricultural post-frame or "pole" buildings. We can build homes, sheds, airplane hangars, riding arenas, live-stock barns, assembly plants and anything in between.

Sherman is a family owned and operated business that constructs about 300 pole buildings a year and employs over 25 people. We pride ourselves on being a leader in the industry with integrity, quality, and experience. There is nothing that we don't know when it comes to post-frame construction. Each and every building is constructed with care and quality while exceeding all local, state, and national building codes.

OUR BUILDINGS

The quality of our products is unsurpassed. We use high quality lumber, a heavy gauge of steel, and advanced building technologies to construct the strongest and most efficient building. All our poles carry a 60-year warranty and our colored steel comes with a 45-year paint warranty.

The trusses, purlins, and roof steel all work together to form a complete engineered roof system. The roof system carries a Lifetime Warranty and is designed to meet or exceed Minnesota and Wisconsin guidelines.

All of our buildings incorporate high quality, cost-effective overhead doors, service doors, and windows. However, every building has the ability to add options or upgrades that will personalize your Sherman Building. Every building is custom-designed to fit the requirements and budget of the customer, please talk to one of our Building Sales Representative for more information.

OUR GUARANTEE

Sherman Pole Buildings is proud to offer a 30 year Structural Integrity and 10 Year Workmanship Warranty on every building that we construct. This Warranty covers a period THREE times the Minnesota State requirement for structure and TEN times the requirements for workmanship. The design, trusses, steel siding, roofing, and snow/wind load are all covered under this warranty.
