

TIMBER TECHNOLOGIES LLC

Lifetime Limited Warranty

Titan Timbers are quality engineered, laminated columns constructed for use in post framed buildings. Each Titan Timber is partially composed, to the customer's specification, of Southern Yellow Pine treated to .60 lbs per cubic foot of retention using CCA and carries a limited warranty against decay for life by the Treater. The ply's of each Titan Timber are bound using a permanent waterproof phenol resorcinol adhesive manufactured by Borden Chemical and are warranted against delaminating by Timber Technologies.

Timber Technologies extends the above warranty to the original buyer of its product. In order for this warranty to be honored, it is the obligation of the original buyer to ensure that the Titan Timbers are handled, stored and installed properly. This entails storing in a dry manner with proper supports and installing with the end treated portion in ground. This warranty does not apply to damages caused by natural disasters, fire, riots, and acts of war or other incidents which are out of the company's control.

In the event that Titan Timbers fail to perform according to this warranty, Timber Technologies, LLC, at its option, will replace or repair the faulty product for the original buyer. This warranty covers the cost of the materials only and does not include other expenses such as labor, freight, or loss of service.

Please keep this warranty and proof of purchase in the event of such a claim.
